

Confidence in Results

Tosoh Delivers Proven Performance in Immunoassay Testing

Every result is important for every patient. Tosoh clinical diagnostic analyzers have a proven history of reliability and accuracy, so laboratories can deliver results with the confidence necessary for patient care.

AIA-2000 200 tests/hour

AIA-900 90 tests/hour
with 9 Tray Sorter

*Also available in 19 tray sorter,
loader, and benchtop models*

AIA-360 36 tests/hour

One Reagent for all Tosoh AIA Systems

- Dry reagent format
- 90 day calibration stability for most assays
- Interchangeable reagents between Tosoh AIA Systems
- Single, unitized cups - No pre-mixing or measuring
- Biotin free immunoassay designs - No risk of biotin interference

Also available, Ferritin for inflammation!

Monitoring Ferritin may help to identify severe patients and predict the progression of COVID-19 towards a worse clinical prognosis¹.
